ARYAN KUMAR RAJ

Full-Stack Developer

SUMMARY

Experience in building scalable web applications using modern frameworks. Deployed multiple full-stack applications on **Vercel, Render and AWS EC2**.

EDUCATION

Rajasthan Technical University

Bachelor of Technology (B.Tech)

Computer Science and Engineering

Nov 2022 - May 2026

CGPA-8.13

SKILLS

- C++
- JavaScript
- React.js
- Node.js
- MongoDB
- Prompt Engineering
- Token Optimization
- GraphQL
- AI Workflow Design

CERTIFICATIONS

- The Complete Full-Stack Web Development Bootcamp by Angela Yu.
Verification Link - [Udemy](#)
- Complete Linear Regression Analysis in Python.
Verification Link - [Udemy](#)

ACHIEVEMENTS

- 3rd rank in HackTech Hackathon
- 4 star in GeeksForGeeks Coding
- LeetCode Peak Rating: 1622

LANGUAGES

- English
- Hindi

PROFESSIONAL EXPERIENCE

Web Developer Intern

Proscen Automation and Training Institute, Kota

June 2025 - July 2025

- Introduced 10+ features, fixed 15+ bugs, and reduced loading time by 50% as a part of a 3-member team.
- Reviewed 15+ pull requests and accelerated delivery timelines by 20%, while maintaining high-quality output.

Web Development Internship

Octanet Services Pvt. Ltd, Remote

May 2024 - June 2024

- Built 15+ reusable UI components to reduce rendering time by 35%.
- Worked with 5+ developers, delivering results within deadlines.

PROJECTS

Leetlens Live Demo - leetlens.tech

- Solved the problem to evaluate up to **10k profiles/month**, scaled to handle up to **4,000 req/sec with 99.9% uptime**.
- Extracted **20+ metrics**, **crafted a 100-point AI framework**, which generates 1,000+ word personalized reports.
- Cached 4,000+ reports in Firestore, reducing API consumption by 60% and delivering results 80% faster.

DigiVote Github Link - github.com/digivote

- Led a **4-member team** to conduct fair, secure and accessible elections by building **256-bit SSL secured** Android application and admin panel.
- Integrated MFS-110, utilized **64-round SHA-256 hashing**, securing fingerprint data across 3 tier storage.
- Received feedback from 10+ professors and fixed 20+ critical bugs.

ShopperAI Live Demo- shopper.vercel.com

- Smart shopping assistant analyzes **1,000+ products**, generating personalized recommendation from **50+ demographic parameters**.
- Combined **10+ custom REST APIs** with **50-point AI decision framework**, integrated one-click to **reduce login time by 90% and latency down to 150ms**.
