EXPERIENCE

Web Developer Intern

Jun 2025 – Aug 2025

Proscon

Kota, India

- Built a frontend form to collect user details (name, address, contact) with client and server-side validation, storing submissions in a **MySQL** database
- Designed an admin panel using **React** to fetch and display stored records directly from the database, reducing manual data lookup time by up to 80%
- Enhanced the frontend by updating **React** components, fixing UI bugs, and reducing page rendering time by 25%

Frontend Developer Intern

May 2024 – Jul 2024

Octanet

Remote

- Built responsive UI using **React**, **Tailwind CSS**, and integrated **REST APIs**
- Fixed bugs and resolved UI issues across the application, improving rendering time by 40%

PROJECTS

LeetLens (<http://leetlens.tech>)

May 2026 – Jun 2026

- Developed full-stack application using **React.js** frontend and **Node.js/Express.js** backend, deployed on **AWS EC2** with a custom **.tech** domain, **Nginx** reverse proxy, and **Let's Encrypt** SSL
- Integrated one-click **Google OAuth** login alongside email/password signup, and designed a credit-based **rate-limiting system** to prevent unlimited API usage per user
- Used **GraphQL** to fetch user profile data and **GroqLLM** to generate a 1000-word report with a 6-month roadmap
- Wrote a custom scoring formula weighting problem difficulty (e.g., higher minimum score thresholds for Hard vs. Medium problems) to generate user scores
- Reached 237 unique visitors and 45 signups since launch, tracked via an admin panel connected to **Firestore**
- Implemented 2-minute periodic camera and location capture using **MediaDevices API** and **HTML5 Geolocation API**, capturing user photos and coordinates, synced via **Fetch API** to **Firestore**, with access restricted to the admin panel

ShopperAI (<https://shopper-ai-lake.vercel.app>)

Jan 2026 – Feb 2026

- Developed Smart AI shopping assistant built with **GroqSDK**, enabling conversational **AI chat** for cart management, order placement/cancellation, and e-wallet balance fetching across 100+ products
- Implemented **sliding window memory** (last 8 turns) in **Firestore** to maintain AI-chat context and prevent hallucinations
- Integrated **Google OAuth** one-click login alongside standard email/password authentication, with saved address storage in **Firestore**
- Deployed on **Vercel** with **JWT**-based session management

TECHNICAL SKILLS

Programming Languages: C++, JavaScript

Frameworks & Libraries: React.js, Node.js, Express.js, Tailwind CSS, REST APIs, GraphQL

Databases & Cloud: Firestore, MySQL, AWS EC2, Vercel, Nginx

AI & GenAI: GenAI, Agentic AI, GroqSDK, LLM Integration, Prompt Engineering

DevOps & Tools: Git, GitHub, JWT, Let's Encrypt, Postman

EDUCATION

Rajasthan Technical University

Kota, Rajasthan

Bachelor of Technology in Computer Science and Engineering, CGPA: 8.24

Nov 2022 – Jun 2026

- **Relevant Coursework:** Object-Oriented Programming, Data Structures & Algorithms, Distributed Systems, Software Development Life Cycle, Software Engineering

ACHIEVEMENTS

- Won 3rd Prize in HackTech Hackathon among 100+ teams
- Achieved highest LeetCode Rating of 1622 and 4-stars in GFG, demonstrating strong **C++** DSA skills
